

Château Juvenal pre-shipment offer

The rising star of the Ventoux continues to ascend ever higher with this selection of wines including new cuvées. Our offer is spread across three vintages: 2020, a superlative year for red wines in particular, followed by 2021, initially thought to favour the whites but reds are deliciously fruity, perfect for drinking early, then 2022, a great all-round year.

The house wines are labelled *Ribes de Vallat* and all offer extremely good value for exceptionally high quality wines.

We haven't bought *Terre du Petit Homme* for a few years but were so impressed with the 2020 that we can't resist offering it now. Similarly, we are pleased to be offering the red *Beaumes-de-Venise* and *Vacqueyras* once again.

The most expensive wines in the range are virtual monovarietal cuvées (appellation rules demand a blend so expect 1% of something compatible). *Perseides Blanc* is, in essence, a barrel-aged Roussanne and as such has a long life ahead although it is gorgeous now. The 2022 Rouge is old-vine Grenache, pure and powerful, a delicious example from the vintage.

The two new cuvées are *V de Juvenal* and *M de Juvenal*, respectively Viognier and Mourvèdre. The first vintage of V was a little over-oaked (so we thought) but subsequent vintages have been superbly judged and, as such, we are thrilled to offer this extremely limited production wine. M is top notch Mourvèdre which, ideally, needs a few year (and will last many more) although we have found it quite irresistible already.

All wines are offered at pre-shipment in bond prices. We anticipate the wines being available for Christmas. Duty and VAT will be payable prior to delivery.
